UNIVERSITY OF ALBERTA

PREFACE

This publication is a consolidated source of detailed longitudinal data about nearly all aspects of operations at the University of Alberta. The document is widely distributed both on and off campus. The Data Book was compiled by Rita Ferguson, using tables and figures prepared by herself and other staff. The staff responsible for the contents of each section are identified at the beginning of that section. The information presented in this publication is available on our website at www.budstat.ualberta.ca/budstat/

Suggestions for changes or additions to the document would be greatly appreciated, and could be communicated to Rita Ferguson or myself (e-mail: rita.ferguson@ualberta.ca, bill.cairns@ualberta.ca or land mail 1-16 University Hall, University of Alberta, Edmonton, Alberta T6G 2J9).

Bill Cairns,
Director
Office of Budget and Statistics

DEFINITIONS

The sources of the definitions are the University of Alberta Calendar, the Office of the Registrar and Student Awards, Financial Services, Human Resources, the Office of the Vice-President (Finance and Administration), the Associate Vice-President (Academic Administration), the Associate Vice-President (Research and External Affairs), and the Office of Budget and Statistics.

The following Departmental and Faculty mergers have occurred in the last five years:

- The Faculties of Medicine and Dentistry merged to become the Faculty of Medicine and Oral Health Sciences.
- Canadian Studies Committee merged with Political Science and retained the name Political Science.
- Film Studies, Comparative Literature, and Religious Studies merged under the name Comparative Studies in Literature, Film and Religion.
- The departments of Classics and History merged under the name History and Classics.
- Pathology and Pathology-Medical Laboratory Science merged under the name Laboratory Medicine Pathology.
- Botany, Genetics, Microbiology, Zoology and Entomology merged to become Biological Sciences.
- Animal Science, Food Science and Plant Science merged to become Agricultural, Food and Nutritional Sciences.
- Forest Science and Soil Science merged under the name Renewable Resources.
- Comparative Studies in Literature, Film and Religion; Germanic Languages; Romance Languages; and Slavic and East European Languages merged to become the department of Modern Languages and Comparative Studies.
- Educational Administration, Educational Foundations, and part of Adult Career and Technology merged to become Educational Policy Studies.
- Educational Research and part of Adult Career and Technology Education merged with Educational Psychology. Subsequently, the Developmental Disabilities Centre merged into Educational Psychology.
- The department of Mathematics and the department of Statistics and Applied Probability merged under the name Mathematical Sciences.
- Recreation and Leisure Studies merged into the department of Physical Education and Sport Studies.
- Physical Education and Sport Studies merged with the Office of the Dean of Physical Education and Recreation.
- The department of Medical Microbiology and Infectious Diseases and the department of Immunology merged to become Medical Microbiology and Immunology.
- Geology and Geography merged as the department of Earth and Atmospheric Sciences.
- Personnel Services and Staff Relations, Pensions and Benefits, and Payroll merged as the Human Resources Group

SESSIONS

Winter Session - the academic session of approximately eight months duration consisting of First Term (September to December) and Second Term (January to April).

Off-Campus - for students living outside the Edmonton area, courses are offered in the Off-Campus program on weekday evenings or on Saturdays. Such courses are offered in selected centers throughout central and northern Alberta.

Intersession Spring Term - the academic term of approximately six weeks duration from the first week of May to mid-June.

Intersession Summer Term - the academic term of approximately six weeks duration from the first week of July to mid-August.

Intersession - beginning in 1991, courses taught in Spring and Summer are organized into two terms of a single session, referred to as Spring Term and Summer Term of Intersession. Previously these periods were called Spring and Summer, and each consisted of a first and a second term.

STUDENTS

All student related statistics are effective as of specific dates for each session.

Winter Session First Term - 1 December 1997
Winter Session Second Term -1 April 1998
Intersession Spring Term - 5 May 1997
Intersession Summer Term - 7 July 1997

Undergraduate Students - students who are enrolled in a Faculty other than Graduate Studies and Research. Undergraduate students are counted as full-time in a term of Winter Session if they are registered in three or more courses. Those registered in one or two courses are counted as part-time.

Graduate Students - students who have been admitted to the Faculty of Graduate Studies and Research. They are designated full-time or part-time students by that Faculty according to their workload of courses and/or research.

Special Students - students who have been permitted to register in one or more courses, but who are not officially enrolled for credit in a degree or diploma program at this or any other institution.

Visiting Students - bona fide undergraduate students of other universities or colleges, who have been permitted to register in one or more courses for transfer of credit to their own institutions, those institutions having agreed in advance to such arrangements. (Visiting Graduate Students are called Exchange Students).

Open Studies - students who are registered in selected credit courses but not committed to or admitted to a degree or diploma program.

Probationary Students - students who have been admitted (or permitted to continue) on a probationary basis because their previous academic record is deficient in some respect, below the standard ordinarily required, or difficult to assess.

Provisional Candidates for a Doctoral Degree - All PhD, EdD, and DMus students are first admitted as provisional candidates; they are reclassified as candidates only when they have met certain requirements outlined in the special regulations for the relevant degree.

Candidate for a Master's degree
Category A: a graduate of a four-year degree program who is continuing in the same field (equivalent of an honors degree or degree with specialization at the University of Alberta).

Category B: a graduate of a four-year degree program who is specializing for the first time but does not require a qualifying year.

Qualifying Graduate Students - students whose records are not consistent with full admission into the Faculty of Graduate Studies and Research. Normally, these are individuals who either hold a three-year Bachelor's degree in the appropriate field or hold a four-year degree but are seeking admission into a completely new field of studies.

Degree - the title officially conferred upon a student for the successful completion of a given curriculum or program.

Diploma - a certificate awarded to a student upon successful completion of a program of studies. A diploma is distinct from a degree in that it does not affect the title that the individual may properly assume.

Post-Graduate Diploma - a certificate awarded to a student upon successful completion of a diploma program in the Faculty of Graduate Studies and Research.

Enrolment - a full-time student enrolled in a program offered by a Faculty generates one full-time enrolment for that faculty; a part-time student generates one part-time enrolment.

Visa Student - a student enrolled at the university who is from a country other than Canada, and who is not a Canadian Citizen or Permanent Resident of Canada. Generally, such a student is in Canada on a Visitor's Visa (Student Authorization).

Permanent Resident - a student lawfully in Canada as an immigrant but who is not yet a Canadian citizen.

Canadian Citizen– a student who is a citizen of Canada, either by birth or naturalization.

Alberta Resident – for purposes of Table 2.1, a student who is a Canadian citizen and whose hometown is within Alberta.

Year of Program – an indicator of a student's progress in his or her program, not necessarily the same as the year of attendance.

COURSES

All course-related statistics are effective as of specific dates for each term in each session:

Winter Session First Term - 1 December, 1997
Winter Session Second Term - 1 April, 1998
Intersession Spring Term - 5 May, 1997
Intersession Summer Term - 7 July, 1997

Course - organized subject matter in which instruction is offered within a given period of time. Credit towards graduation or certification is given for "credit" courses. ("Non-credit" courses carry no such commitment on the part of the University). Section types are lecture, seminar, laboratory, (or some combination of these), independent study, clinical experience, research and/or development project, design project, internship, practicum, field school, and field trip. A course is counted in each term in which it is taught.

Course Level - assigned to a course as part of the course designation, this number indicates the level of a student to whom a course is primarily directed.

Seminar - instructional activity distinguished by relatively small registration and considerable group discussion. Some lecture courses may involve seminar sections, where the lecture group is divided into smaller groups.

Laboratory - instructional activity which requires special purpose equipment and/or student experimentation or observation.

Course Registration - one student registered in one course. A student registered in a half-course is counted as one registration; a student registered in a full-course is counted as two registrations, one for each term. (Compare "Enrolment": a student enrols in a degree program; he or she registers in courses).

Section of a Course - a group of students which meets together for one of the above types of instructional activity. Large courses are generally subdivided into two or more sections which meet at different times and/or different places. A single course may have different sections defined or different types of instructional activities (for example, lecture and laboratory sections).

Average Section Size - the average class being supervised by teaching staff. The calculation is:

$$\text{Average Section Size} = \frac{\text{Total Number of Course Registrations}}{\text{Total Number of Sections}}$$

Average Section Sizes are calculated for lectures, seminars and laboratories only.

Weekly Student Hour (WSH) - the unit of measure which represents instruction given to students during each week for a given term.

WSH = the number of approved hours of instruction per week of a section of a course x the number of students registered in the section.

Weekly Contact Hour (WCH) - the unit of measure which represents the time spent by teaching staff instructing courses each week for a given term.

WCH = the number of approved hours of instruction per week of a section of a course x the number of instructors present in the section.

Note: The WSH for each course are assigned to the department formally offering the course. The WCH are assigned to the department of the instructor teaching the course. Information for these reassignments is provided by the departments.

a. Lecture Sections - although two or more instructional staff members may share lecture responsibilities for a section of a course during a term, only one can lecture at any one time, so "one instructor" normally is used in the calculation of WCH for those sections.

b. Seminar Sections - are often subdivided into smaller discussion groups, and because two or more instructors are often jointly involved in the same seminar, the WCH calculation normally allows for the actual number of staff.

c. Laboratory Sections - for similar reasons, the WCH calculation for laboratory sections is handled in the same manner as the WCH calculation for seminars.

d. Lecture-Laboratory Sections (LCL) - when sections are defined as LCL, and no further breakdown is specified, the WSH and WCH are arbitrarily split into 2/3 lecture and 1/3 laboratory.

e. Laboratory-Lecture Sections (LBL) - when sections are defined as LBL, and no further breakdown is specified, the WSH and WCH are arbitrarily split into 1/3 lecture and 2/3 laboratory.

STAFF

All staff related statistics for the academic year are determined as of the first term census period (October for the years 1993, 1995, 1996, and 1997; and December for the year 1994).

Full-time Equivalent (FTE) - a weight applied to individuals in appointments that provides a comparison with a full-time employee in the same position.

Headcount - count of the number of individuals in a category. The total shown for a group of categories may not equal the total of the headcount for each category, since staff may occur in more than one of the categories.

Caution: because changes may occur occasionally in methods of classification and calculations (e.g., means of calculating FTE Staff), readers are cautioned that some data may not be directly comparable from year to year.

Academic Staff

a. Teaching Faculty:

   1. all persons who either have tenure or hold probationary appointments which can lead to tenure, and who are governed by the Board AASUA Agreement – Faculty. This classification includes Professors, Associate Professors, Assistant Professors, and Lecturers.

   2. all persons whose employment is governed by the Board AASUA Agreement – Sessionals and Other Temporary Staff. Such persons usually have term appointments, but under certain circumstances tenure may be involved.

b. Faculty Service Officers (FSO) - all persons whose full-time employment is governed by the Board - AASUA Agreement - Faculty Service Officers. Such persons have either tenure or probationary appointments leading to tenure. These positions are professional and technical in nature.

c. Administrative and Professional Officers (APO) - all persons whose full-time employment is governed by the Board - AASUA Agreement - Administrative and Professional Officers. Such persons either hold continuing appointments or probationary appointments leading to continuing status. These positions are professional and managerial in nature.

d. Librarians - all persons whose full-time employment is governed by the Board - AASUA Agreement - Librarians. Such persons have either tenure or probationary appointments leading to tenure.

   Note: Faculty Service Officers, Administrative and Professional Officers and Librarians may be employed under the full-time temporary or part-time regulations above.

Academic Trust Staff - all those persons employed to assist and/or to collaborate with the principal researcher on a specific research project. This classification includes Research Associates, Research Assistants and Post-Doctoral Fellows.

Graduate Assistants (GA) - all those persons enrolled in the Faculty of Graduate Studies and Research who are proceeding with their graduate programs and are paid to carry out either of the following functions:

a. **Teaching (GTA)** - teaching duties which include the preparation of teaching or laboratory assignments, instruction in laboratories or the equivalent, and the grading of essay assignments or laboratory reports.

b. **Research (GRA)** - research duties consisting of working for the department or a staff member of a research project(s), the result of which may or may not be used in their theses.

A full-time GA is a full-time graduate student holding a Graduate Assistantship which requires twelve hours per week of teaching or research duties. Full-time GA's have an FTE weight of 0.33. GA's with smaller workloads have a reduced FTE.

Support Staff

a. Full-time Regular Monthly Salaried - such persons occupy established positions paid from the operating budget and work 35, 37.5, or 40 hours per week.

b. Part-time Regular Monthly Salaried - such persons occupy established positions paid from the operating budget and may work from a minimum of 15 hours per week to a maximum of 25 hours per week.

c. Recurring Term - such persons work on a full-time or part-time basis for two or more specified terms in the same position. Each term is specified for more than eight months and fewer than ten months.

d. Term - such persons work on a regular weekly schedule on a full-time or part-time basis for a specified term for more than three months and fewer than twelve months.

e. Hourly - such persons are paid an hourly wage rate and work a minimum of 60 hours per month for a minimum of two consecutive months. Hourly positions are not established positions and are not continuing in nature.

f. Casual - employees who work for less than two consecutive calendar months or complete two consecutive months of employment for less than sixty hours per calendar month.

g. Full-time Trust - such persons are employed on a full-time regular basis for one year or more and are paid from Trust Funds.

h. Part-time Trust - such persons are employed on a part-time or indeterminate basis for less than one year and are paid from Trust Funds.

SPACE

Gross Area - the sum of the floor areas within the outside weatherface of exterior walls for all stories or areas which have floor surfaces and are heated. This category excludes open courts and light wells, portions of upper floors eliminated by rooms or lobbies which rise above single floor ceiling height, or floored surfaces with less than two meters clear head room that cannot be properly designated as assignable, mechanical, circulation or custodial areas.

FINANCES

Fiscal Year - is the period for which the University regularly prepares financial statements - 1 April to 31 March of the following year.

Operating - the routine operation of the University financed by government grants, student fees and other general revenues.

Operating Budget - is the budget for the routine operations of the University. The Operating Budget, as it is presented in this Data Book, has two components: the base budget and the revised budget. The base budget is the continuing budget of a department or account. If no budget action is taken, the base budget will be the budget for a department or account for the following year. It is not directly comparable to Operating

Expenditures because "central" budget contingencies, FLEX carried forward from the previous year, and temporary budget adjustments are not reflected here. The revised budget at year-end includes all temporary budget changes which have been processed during the fiscal year. It includes additional allocations, FLEX carried forward from the previous year, and any other budget adjustments. It is most comparable to actual expenditures.

Conditional & Access Grants - are government grants providing restricted funding to implement specific new programs. Viable programs funded by conditional grants may become part of the Operating Fund in subsequent years.

Ancillaries - provide goods and services to the University community and are expected to operate on a break-even basis. These departments are assessed most overhead costs associated with their operations, such as occupancy, central administration, payments of principle and interest on all long term debts, and provisions for equipment replacement or extraordinary maintenance reserves.

Sponsored Research - comprises those funds provided principally by agencies external to the University and individuals, specifically for the purpose of financing research. Included are both research grants and contracts, which are defined below, but not all expenditures for research at the University, since substantial amounts are disbursed from Operating Budgets and endowment earnings.

Special Purpose - comprise funds provided for purposes other than research or endowment. Included are community service projects, scholarships, non-research consulting, general grants-in-aid to departments and miscellaneous receipts.

Endowments - are donations made to the University with the intent that the amount would be maintained intact (generally) and invested. The income thereby generated would be used to support the project or purpose stipulated by the donor.

Capital - reflects the cost of fixed assets (including capital assets initially charged to some other fund) financed by government grants, donations, other capital revenues and borrowed funds. Land, buildings (including buildings under construction), equipment and furnishings costing over $500 until 31 March 1997 and $1000 after that date, and long-term acquisitions are capitalized at cost. The Capital Fund includes capital receivables, fixed assets, long-term debt, capitalized expenditures and unexpended funds.

Consumer Price Index - is an annual index for Edmonton with 1992 as the base. It is an all-items index averaged from the Edmonton indices for the following items: food; housing; clothing; transportation; heath and personal care; recreation; education and reading; tobacco and alcohol.

1993: 100.8 (0.8)* 1994: 102.4 (1.6) 1995: 104.5 (2.1) 1996:106.8 (2.2) 1997: 108.7 (1.8)
*percentage increase over previous year.

RESEARCH

Research Grants - the principle purpose of a research grant is to support research of particular interest or relevance to an individual or a department. It is characterized by a minimum of restrictive conditions and obligations, and is somewhat flexible in time and allocation of resources. Grants are usually awarded either to individuals (or groups of individuals) or to institutions on their behalf, in response to individual or group initiative. The general terms and conditions established for such awards are not negotiable. Research grants may be categorized as research grants and personnel awards.

Research Contracts - the principle purpose of a research contract is to purchase specific research services or expertise. A research contract is characterized by specific terms of reference; it reserves for the awarding agency specific rights as to the title, use and publication of the report. All items in a contract are negotiable, subject only to the outside limits established by University and government policies. An overhead charge is usually applied by the University.

Personnel Awards - are funds received exclusively to pay salaries or stipends to students or researchers. These accounts are administered by the University.

Central Research Fund (CRF) - a fund under authority of the Vice-president (Research and External Affairs), whose purpose is to contribute to the growth of the University of Alberta as a research university of international stature. It is comprised of five components: a general fund, an NSERC fund, a SSHRC fund, a medical fund, and an AHFMR fund. The University Research Awards Committee administers the awards on the basis of individual merit.

LIBRARY

Books and Book Equivalent Items - include microfilm, audio visual kits and periodical backfiles as distinct from subscriptions.

Periodicals and Serials - covers extended procurement rather than one-time purchases.

Library Holdings and Net Acquisitions - "volumes" include book, serial and periodical volumes. Each microfilm unit is an equivalent volume.

SUMMARIES

STAFF

The tables in this section have been compiled from the following Payroll census extracts and Budget data bases:

1993-94 data as of October
1994-95 data as of December
1995-96 to 1997-98 data as of October

The staff tables were completely redesigned in 1993-94.

The Faculty of Dentistry was merged with the Faculty of Medicine to become the Faculty of Medicine and Oral Health Sciences effective April 1, 1996.

This section was compiled by: D. Olausen

Parkades and Service Corridors	138,723.0	143,243.2	159,514.4	159,825.0	160,158.2
Total Building Space	1,092,113.0	1,130,937.9	1,117,762.2	1,097,119.4	1,105,977.2

FINANCES

The tables in this section have been derived from the Financial Statements, unpublished supplementary schedules, the General Ledger, the Capital and Operating Budgets, and the detailed operating budget. More detailed information is available from those sources. Changes to this section for 1997-98 include the addition of conditional grants, access programs and ancillary detail in Table 6.2 on operating expenditures; and the addition of the year-end revised budget to Table 6.5 on the operating budget.

This section was compiled by: D. Quigg
The figures were prepared by: Dale Olausen

The source of these figures is the General Ledger prepared by Financial Services. It includes activity funded through basic operating, conditional and access grants, and ancillary departments. Conditional grants and access programs have been added to this table for the first time this year, and additional detail on ancillary departments has been provided.

The source of these figures is the Capital and Operating Budgets prepared by Budget and Statistics. These figures include Conditional and Access Grants (before allocation of sub-grants). This reflects the base budget at time of publication.
In 1996-97, the Faculties of Dentistry and Medicine merged to become the Faculty of Medicine and Oral Health Sciences.
A number of changes have been made to the aggregation of Support Departments in 1997-98. The composition of these groupings is available from Table 6-5.

Note: The source of these figures is the operating budget maintained by Budget and Statistics. The base budget is the continuing budget for a department or unit at time of budget publication. The revised budget incorporates all one-time budget changes to the end of the fiscal year. The Conditional Grant and Access program budgets reflect only the budgets of the account receiving the grant from the government. Because of double counting, sub-grants are not shown here.

Note: These figures are actual expenditures, not budgeted allocations, for operating and trust. Conditional Grant funds are included with operating. These figures include stipends and bursaries paid to graduate assistants; payments to graduate trainees and other graduate academic assistants. Scholarships are excluded wherever possible, although graduate awards paid from departmental operating and trust accounts are included. Payments from accounts which do not attempt to differentiate graduate from undergraduate students have been excluded. The source of these data is the General Ledger prepared by Financial Services.

RESEARCH

The tables in this section have been derived from the General Ledger, prepared by Financial Services, and from the data provided by the Research Grants Office. The table entitled "Sponsored Research Funds by Type of Award" has been discontinued.

The tables in this section were prepared by: D. Quigg Tables 7.1 and 7.2
K. Moodie Table 7.3

1997-98										136,331,188

The source of these figures is the General Ledger maintained by Financial Services. Authority for many of the Heritage Fund personnel awards was transferred from individual departments to Special Funds in 1993-94. This resulted in a shift of funds to "Non-Departmentalized Accounts" although the research was still performed within the departments. This table presents the revenues captured in specific accounts which are defined as "sponsored research". It does not include "special purpose" accounts. Contributions from endowments earnings and spending accounts are presented as a one line adjustment to the total.

The source of these figures is the General Ledger maintained by Financial Services. Authority for many of the Heritage Fund personnel awards was transferred from individual departments to Special Funds in 1993-94. This resulted in a shift of funds to "Non-Departmentalized Accounts" although the research was still performed within the departments. This table presents the expenditures captured in specific accounts which are defined as "sponsored research." It does not include "special purpose" accounts or expenditures made possible by contributions from endowment earnings or spending accounts.

TOTAL ACQUISITIONS	173,955	198,626	199,696	171,369	108,214
SERIAL SUBSCRIPTIONS (4)	20,854	26,424	25,673	25,993	27,886
CIRCULATION					
Student and Faculty Loans (5)	1,127,246	964,781	1,042,259	1,077,205	1,188,941
Outgoing Inter-Library Loans	74,410	71,411	72,627	65,126	68,189
Incoming Inter-Library Loans (6)	26,928	26,951	26,872	26,714	34,113

These statistics were prepared by the Library.

Notes:

(1) The University of Alberta Libraries are a member of the Networking Edmonton Online System (NEOS) consortium.

(2) The microforms figure for 1997-98 has been revised to reflect a more accurate holdings count.

(3) Current year's acquisitions are only for the University of Alberta Libraries.

(4) Serial subscriptions include periodicals and standing orders. Beginning with 1994-95 the data include NEOS libraries. The figures have been revised to include subscriptions received on exchange, gift and depository arrangements.

(5) The Libraries changed their method of compiling circulation statistics in 1994-95.

(6) Items borrowed and photocopies received from other libraries.
